

Part B Specialists

Helping pharmacies serve Medicare Part B customers without the high costs and red tape!

Problem: You don't want to lose Medicare Part B patients to the competition, but it isn't worth the high costs of being a provider and dealing with the red tape of claims and audits.

Solution: Part B Specialists

For only \$99 per year you can provide patients with diabetes testing supplies, flu and pneumonia vaccinations, and the drugs covered under Medicare Part B without paying provider enrollment fees, accreditation costs, and surety bond premiums. And as a benefit to being a Currus member, you will receive an *additional 3 months FREE!*

Join the thousands of pharmacies across the country that have eliminated the cost and headaches of dealing with Medicare Part B. No more claims processing fees, chasing documentation or dealing with audits for reduced reimbursements.

Once enrolled you can submit claims like you do for any third party plan. Part B Specialists handles the verification of Medicare eligibility, collects any required documentation, submits claims as the accredited Medicare provider, and assumes responsibility for audits and risk of loss.

Program Benefits Include:

- Complete Medicare Part B claims processing – including diabetic supplies, Medicare Part B medications and vaccines.
- Eliminates the Medicare Part B red tape. PBS handles all billing, audit responses, and document collection – including blood glucose logs and medical records.
- Allows you to begin or continue servicing Medicare Part B customers under challenging reimbursement rates.
- The product being dispensed is reimbursed as well as administration fees where applicable.
- Eliminates costs associated with dealing with Medicare directly such as accreditation costs, surety bonds and enrollment fees, if applicable.
- Medicare Part B Plan formulary includes Budesonide, Perforomist and Brovana, which provide negative reimbursement for most pharmacies.
